

GREENHOUSE GAS MANAGEMENT AWARENESS PROGRAMME

+ GREENHOUSE GAS (GHG) MANAGEMENT AWARENESS PROGRAMME

DATE & TIME

21 February 2025
8.45am - 5.00pm

PLATFORM

**Microsoft
Teams**

Complimentary for all MRC Members and Non-Members

The Greenhouse Gas Management Awareness Programme addresses current challenges related to global warming and climate change, highlighting both global and national efforts and initiatives for GHG management. The programme aims to inspire rubber manufacturers to minimise their environmental impact, improve business operations, and align with global sustainability objectives. By embracing low-carbon practices, businesses can build resilience in the face of climate change and pave the way towards a sustainable, and a thriving Net Zero economy.

The programme seeks to inspire participation and create awareness among rubber manufacturers, offering engagement sessions focused on GHG management and preparing for Net Zero commitments. Together, let's take action and drive a sustainable, low-carbon future!

Speaker

Dr Sazalina Zakaria

Head of Department,
GHG Advisory & Consultancy
MGTC

Norzarifah Ismail

Technical Specialist,
GHG Advisory & Consultancy
MGTC

Key Highlights

- Climate Change: Emerging trends, challenges & opportunities
